

Evolve to an Autonomous Digital Enterprise

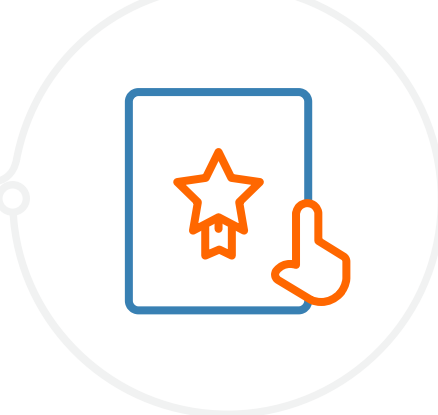

In the Enterprise 2025 vision, people, technologies, data, devices, and an ever-expanding network will converge to transform all work and life.

Next-generation digital business applications enabled by AI/edge computing

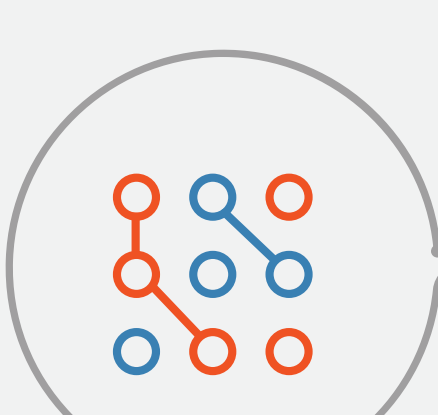

New roles for the workforce that call for ingenuity and creativity

Radically personalized and self-driven customer experiences

To thrive in this Enterprise 2025 futurescape, every organization will need to evolve to an Autonomous Digital Enterprise, where intelligent, integrated, value-creating functions can operate with minimal human involvement across every facet of the organization.

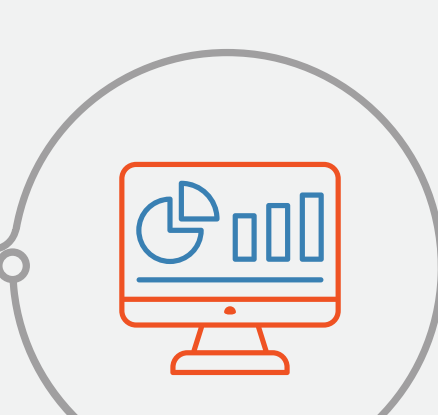

An Autonomous Digital Enterprise
