Security Operations Centers

Trustwave is a leading cybersecurity and managed security services provider focused on threat detection and response. Offering a comprehensive portfolio of managed security services, consulting and professional services, and data protection technology, Trustwave helps businesses embrace digital transformation securely. Trustwave is a Singtel company and the global security arm of Singtel, Optus and NCS, with customers in 96 countries.

Managed Security Services

24/7, vendor agnostic global capabilities to monitor and manage critical assets. Threat detection and response using security expertise, AI and analytics. Proactive threat hunting and intruder eradication. Delivered from a technology platform and based upon global and local threat intelligence.

Data Protection Technology

Security technologies from Trustwave and leading partners that control and provide multi-layered protection of critical data assets.

Consulting & Professional Services

Global expertise and best practices to architect and design, to assess and implement and manage and respond. Regional and industry capabilities and expertise.
